I'm in Love With Wonder Woman Richard 'Daddy' Love

G Em
I'm in love with Wonder Woman and I'm not sure what it means
D C G
She's got a smile that's twice as nice as any I've ever seen
G Em
I see her on the TV or in the magazine
D C G
She always looks so pretty, always looks so clean

G C
Seems to me that I was sad until she came along
D C G
But since that time I find that I'm singing a different song
G C
I love the way she wears her hair, I love the way she walks
D C G
I love to hear her soothing voice, I love it when we talk

CHORUS

Doctor Strange is crazy and he wants to rule the world
You know he'd have it easy if it wasn't for my wonder girl
He built a purple death ray that would shoot a thousand miles
She came along and tore it up and gave us all a smile

CHORUS

People say I'm crazy and I'm wasting all my time
Because she doesn't answer when I drop her a line
But I'll keep on writing letters, keep on dialing that telephone
Sometime soon I know I'll find Wonder Woman at home

CHORUS
I'm in love with Wonder Woman and I'm not sure what it means…
