

Remember the day when we first met
'For Sale' sign on your side
Red gas tank and shiny chrome
You said 'come on boy, let's ride!'

Big red motorcycle
Always ready to roll
Take me some place where I've never been
Calm down my restless soul

We ride to the mountains, ride to the lakes
We go someplace every day
Sometimes on the way to work
We go a hundred miles outta the way

Big red motorcycle
Always ready to roll
Take me some place where I've never been
Calm down my restless soul

Now Red and I are always willing
To treat a young lady right
Climb on baby put your feet on the pegs
Hold on to us real tight

Big red motorcycle
Always ready to roll
Take me some place where I've never been
Calm down my restless soul

(repeat chorus)
