

Christmas Down at Rehab Richard 'Daddy' Love 12/2/23

**We're so glad you got your life together, we talk about you a lot
There's pancakes in the toaster, hot coffee in the pot
Counselor sees we're all smiling, It must come as a relief
The knives and forks are plastic, In case someone has a beef**

**We're still the same old bunch of folks, without whiskey, rum or beer
It's Christmas down at rehab and we're missin' you this year**

**Mary was into chardonay, Joseph drank whiskey straight
Rebecca said flavored vodka, made her a real fun date
John always drank the finest Scotch from a crystal highball glass
Me I just drank tequila shots 'til they knocked me on my ass**

**We are all so proud of you, you took those twelve steps out of here
It's Christmas down at rehab and we're missin' you this year**

**Now the pancake breakfast is over, the coffee's all gone cold
I'm doing my best to be good, 'cause this place is getting old
You can count on this for sure, soon I will follow your lead
I know I can control my drinking, with the help of medical weed**

**Guess I'll say goodbye for now, group session time draws near
It's Christmas down at rehab and we're missin' you this year**
