

You know how you wake in the morning, And your body wants to stay in bed  
Alarm clock rings, Early bird sings, And you gotta kick start your head?  
Work day starts so damn early, Morning sun has barely come up  
Throw on your clothes, Powder your nose, Say 'Good Mornin' to your coffee cup!

Coffee, coffee, coffee, coffee - CHORUS -  
Cream and sugar or just plain  
Coffee, coffee, coffee, coffee  
Clear the cob-webs from your brain  
Coffee, coffee, coffee, coffee  
Gotta get a dose of caffeine  
Coffee, coffee, coffee, coffee  
Oh thank you mister coffee bean!

You know how you feel a bit sleepy, After lunch when it's siesta time?  
You grab a big cup, drink it all up, And everything will work out fine

- CHORUS -

Now God He created everything, In six days give or take  
He rested on seven, kicked back in Heaven, And took Himself a coffee break

- CHORUS -
