

**Cruisin' through the country, not another soul in sight  
The radio is blastin', the windows are open wide  
The road meets the sky at the top of the hill  
Can't beat the way a cool ride makes you feel  
There's a place for you baby inside  
Daddy's new ride**

**I toot on the horn as I pull up in the drive  
You run outside, those pretty eyes open wide  
Well it's sharp and sleek, it's shiny and clean  
It's the sweetest little cruiser you've ever seen  
There's a place for you baby inside  
Daddy's new ride**

**Daddy's new ride, Come on baby let's go  
Daddy's new ride, Come on baby let's go  
Daddy's new ride, Come on baby let's go  
Daddy's new ride, Come on baby let's go**

**The road meets the sky at the top of the hill  
Can't beat the way a cool ride makes you feel  
There's a place for you baby inside  
Daddy's new ride**

**The road meets the sky at the top of the hill  
Can't beat the way a cool ride makes you feel  
There's a place for you baby inside  
Daddy's new ride**
