

**I wish I... was drinkin', In a super comfy chair
With a cigar made in Cuba, And a girl with curly hair
When I wake up in the morning, That's the best I feel all day
I've been sober for a year now, Every now and then I say...
All day long I've been thinkin', I wish I was drinkin'!**

**I wish I was a young man, And the world was my playground
I'd play guitar up in front of, a solid wall of awesome sound
When I wake up in the morning, That's the best I feel all day
I've been sober for a year now, Every now and then I say...
All day long I've been thinkin', I wish I was drinkin'!**

**If I could have just one wish, I was certain would come true
Girl I'd wish for a lifetime, sitting' right here next to you
When I wake up in the morning, That's the best I feel all day
I've been sober for a year now, Every now and then I say...
All day long I've been thinkin', I wish I was drinkin'!**
