

Following Sweet Gypsy's Smile - Richard 'Daddy' Love

12/28/19

Gypsy is very well-traveled
She's been all over the place
Put the top down, Head out of town
Brings a big smile to her face

Gypsy growls at big city traffic
Loves wide open highways
If she had her wish, It would be this
To travel them all of her days

This world flies by at such rapid pace - CHORUS
Spinning while hurling itself through space
Life passes quickly, time seems to race
Each of us clinging on to our place,
Meanwhile...
I'll be the guy with stars in his eye
Following sweet Gypsy's smile
Yeah I'm just a guy with stars in his eye
Following sweet Gypsy's smile

Gypsy wears things that are shiny
She looks so damn good in red
Her smile could light your darkest night
Chase all those blues from your head
- CHORUS
