

Played guitar since age thirteen, I've played it sweet and I've made it scream  
Reaching for a crazy dream, that's so hard to land  
Played a bunch of covers and I wrote my own, spent a lotta nights away from home  
I was in and out, of every kind of band

**CHORUS**

I have rocked and I have rolled, now I'm just too damn old, Guitar for sale  
I played the blues, until they all came true, Guitar for sale  
When I was a kid, that was all I did, Guitar for sale

Never had the focus to finish school, My office chair was an old barstool  
I was always thinking about my next song,  
Never made much money didn't go for gas, I was going nowhere but not too fast  
Women I attracted didn't stay too long

**CHORUS**

This damn guitar cast a spell on me, took all these years before I could see  
It had me in a trance, in its evil curse  
One thing that I know for sure, for my affliction there is no cure  
This guitar it tempts me, "come on one more verse"

**CHORUS**
