

The night is dark, the sky is clear  
There's an empty spot in my heart when you're not here  
Before we met, I was alone  
My life was a puzzle, with some pieces gone

You and I were made to be together  
Our love reaches across every mile  
You and I were made to be together  
Come to me and linger for a while

You're up there, many miles away  
I know the winds that blow, will bring you back someday  
Until that time, you're here with me  
I'm gonna try my very best to make you see

You and I were made to be together  
Our love reaches across every mile  
You and I were made to be together  
Come to me and linger for a while

All those years, did take their toll  
Every time I took a punch, I tried to roll  
But I see hope, in your face  
Holding you I know I found my place

You and I were made to be together  
Our love reaches across every mile  
You and I were made to be together  
Come to me and linger for a while  
You and I were made to be together  
I know we will be, one of these days  
You and I were made to be together  
And linger with each other always
