

**Come on down to the Blue Onion baby
And join us for a drink
We got great live music, the best looking girls
And we got liquor by the wink**

**Liquor by the wink, Liquor by the wink
Ain't exactly legal to serve it to you
But we got liquor by the wink**

**Oklahoma's got some crazy laws
About the way folks can sell booze
Not so much to discourage
Merely to confuse**

**Liquor by the wink, Liquor by the wink
Ain't exactly legal to serve it to you
But we got liquor by the wink**

**The phone just rang, it was another bar
Said the liquor cops just hit town
Busted a couple of joints already
Won't be long before they come around**

**But not to worry just sit back down
Would you like to have one more?
Your pretty waitress will fix you up
But it's time for me to work the door**

**Good evening folks it's a beautiful night
Feels a little like rain to me
Do you now or have you ever worked in a
Law enforcement agency?**

**Liquor by the wink, Liquor by the wink
Ain't exactly legal to serve it to you
But we got liquor by the wink**
