

The first time I saw you, you put my heart in such distress
You looked just like a shiny jewel in that tight red sequined dress
You shined so very brightly, you were all that I could see
In my mind the room went dark and there was only you and me

Smokin' hot fashion babe you are the love of this boy's life
You are my best and closest friend, beautiful partner, lover, wife
The mother of our daughters, both have your eyes of blue
All the jewels in all the world can't shine as bright as you

The next time I saw you, tight blue jeans showed every curve
I wanted so bad to talk to you, but I couldn't find the nerve
The artist in me is always drawn, to works of great beauty
I'd love to start each morning, with you lying next to me

Smokin' hot fashion babe you are the love of this boy's life
You are my best and closest friend, beautiful partner, lover, wife
The mother of our daughters, both have your eyes of blue
All the jewels in all the world can't shine as bright as you

The third time I saw you, your eyes and dress so intensely blue
I found myself unwilling, to take my eyes off of you
You walked up to me and asked, "You got something to profess?"
"I'd love to paint your portrait with those blue eyes in that blue dress"

Smokin' hot fashion babe you are the love of this boy's life
You are my best and closest friend, beautiful partner, lover, wife
The mother of our daughters, both have your eyes of blue
All the jewels in all the world can't shine as bright as you

We've been lovers since that day, and done everything together
Every day I see your face, I know I'll love you forever
