

**Well my baby calls me daddy, calls me daddy all the time
My baby calls me daddy, calls me daddy all the time
You know my baby's lovin', make me feel so fine**

**No, I ain't no rich man, but I do what I can
You know I ain't no rich man, but I do what I can
To keep my baby happy, try to be a good man**

**I try to say the right things, but words come out all wrong
You know I try to say the right things, but words come out all wrong
Don't know just how she does it, put up with me for so long**

**My baby calls me daddy, calls me daddy all the time
My baby calls me daddy, calls me daddy all the time
You know my baby's lovin', make me feel so fine**

**I'm gonna tell her that I love her, I'm gonna hold my baby tight
I'm gonna tell her that I love her, I'm gonna hold my baby tight
And then I'm gonna kiss her, make her feel alright**

**My baby calls me daddy, calls me daddy all the time
My baby calls me daddy, calls me daddy all the time
You know my baby's lovin', make me feel so fine**
