

I saw you in a dream of mine, moonlight in your hair
You know you looked so beautiful standing there
You turned your head so slowly as my footsteps you heard
Turned your head but said not a word

And I have loved you, Jennifer
Sister Golden Hair you'll always be
Though the miles between us seem so long and cold
Won't you come back to me

I always think about you. You're always on my mind
Oh babe how could you leave me behind
You know you're always smiling in the picture on my wall
In love I thought I'd slip, but never fall

And I have loved you, Jennifer
I want you to know that I still do
If you ever want me just say you do
And I will be there with you

There's a pretty autumn sunrise in this Oklahoma air
You're in Arizona somewhere
I guess it just had to happen, you left it all
In love I thought I'd slip, but never fall
In love I thought I'd slip, but never fall
