

Single Lane Dirt Road

Richard Love

12/16/00

E

Somewhere in the country down a single lane dirt road

There's a place I like to go to when I need to be alone

I work off all my tensions while walking through the trees

Play guitar with my hound dog, he keeps rhythm scratchin' fleas

A E A (-----pause-----) E

I wanna go, I wanna go, I wanna go, down a single lane dirt road

E

Everything I've done this week was like swimming up the stream

If I hear one more problem I think I'm gonna scream

I got all the static I could take by Monday afternoon

Now I believe that five o'clock can never come too soon

A E A (-----pause-----) E

I wanna go, I wanna go, I wanna go, down a single lane dirt road

(Instrumental Verse)

E

Someday soon I'll take you for a ride out to my place

We'll lie under the stars at night and stare off into space

Coyote's sound like children playing moving through the wood

More of this and less of that would do my spirit good

A E A (-----pause-----) E

I wanna go, I wanna go, I wanna go, down a single lane dirt road
