

Dry Drunk Blues

Richard Love 9/27/13

Intro: E A E B E

I wish I... was drinkin', In a super comfy chair

With a cigar made in Cuba, And a girl with curly hair

When I wake up in the morning, That's the best I feel all day

I've been sober for a year now, Every now and then I say...

All day long I've been thinkin', I wish I was drinkin'!

I wish I was a young man, And the world was my playground

I'd play guitar out in front of, A solid wall of awesome sound

When I wake up in the morning, That's the best I feel all day

I've been sober for a year now, Every now and then I say...

All day long I've been thinkin', I wish I was drinkin'!

If I could have just one wish, I was certain would come true

Girl I'd wish for a lifetime, sitting' right here next to you

When I wake up in the morning, That's the best I feel all day

I've been sober for a year now, Every now and then I say...

All day long I've been thinkin', I wish I was drinkin'!
