

E
The night is dark, the sky is clear

A E
There's an empty spot in my heart when you're not here

E A E
Before we met, I was alone, My life was a puzzle, with some pieces gone

B E A B - [CHORUS]
You and I were made to be together, Our love reaches across every mile

A E B E
You and I were made to be together, Come to me and linger for a while

E
You're up there, many miles away

A E
I know the winds that blow, will bring you back someday

E A
Until that time, you're here with me, I'm gonna try my very best to make you see

[CHORUS]

E
All those years, did take their toll

A E
Every time I took a punch, I tried to roll

E
But I see hope, in your face

A E
Holding you I know I found my place

[CHORUS - modified]

B E A B
You and I were made to be together, I know we will be, one of these days

A E B E
You and I were made to be together, And linger with each other always
