

Not Enough Whiskey (in the World) Richard Love

8/30/06

[Verse 1]

E

You know I love you baby, You're the reason I carry on
I walked for miles to get to your house, Your momma says you're long gone

A

You always treat me so badly, Always make me feel so blue - **CHORUS** -

E

You stomp my heart into the ground, And scrape the rest off your shoe

A

E

I tried to forget you baby, Cannot forget you little girl

A

B

I just can't forget you baby, There's just not enough whiskey in the world

[Verse 2]

I bought you something shiny, Cost me almost two month's pay
You treated me nice for a little while, But you were runnin'round the very next day

You always treat me so badly, Always make me feel so blue - **CHORUS** -

You stomp my heart into the ground, And scrape the rest off your shoe

I tried to forget you baby, Cannot forget you little girl

I just can't forget you baby, There's just not enough whiskey in the world

(Lead break)

[Verse 3]

I bought you a dozen roses, I hired us a limousine
You ran off with the driver, Girl you can be so mean

You always treat me so badly, Always make me feel so blue - **CHORUS** -

You stomp my heart into the ground, And scrape the rest off your shoe

I tried to forget you baby, Cannot forget you little girl

I just can't forget you baby, There's just not enough whiskey in the world
