

**G C**  
It's early in the morning / I warm my hands on my coffee cup

**G D**  
Step out to the driveway / Hop in my old truck

**G C**  
Two pumps on the gas / Turn the key to start

**G D**  
Some folks say she's ragged / About to fall apart

**C Em**  
This old truck's a little fussy, But she never lets me down - chorus

**C D**  
One door's painted primer gray, The other primer brown

**C Em**  
This old truck she wraps around me, Fits me like a glove

**C D**  
Taking care of this old truck, Takes a special kind of love

**G C**  
Now the workin' day is over / It's time to have a brew

**G D**  
She takes me to a honky-tonk / To drink a beer or two

**G C**  
Couple honeys at the bar / Few more drinks and I'll take my chance

**G D**  
I'll just walk over there and say 'Hello' / Ask that girl to dance

**G** **C**  
Whiskey gives me courage / Tequila makes me fun

**G** **D**  
Sometimes it makes me forget / That I should stop at one

**G** **C**  
Nine or ten shots later / Girls at the bar have gone

**G** **D**  
I'm having trouble walking / Guess I should head for home

**G** **C**  
I make it to the truck somehow / And fumble for my keys

**G** **D**  
The engine whines and moans and groans / But she just won't start for me

**C** **Em**  
This old truck's a little fussy, But she never lets me down - chorus

**C** **D**  
One door's painted primer gray, The other primer brown

**C** **Em**  
This old truck she wraps around me, Fits me like a glove

**C** **D**  
Taking care of this old truck, Takes a special kind of love

**C** **Em**  
This old truck's a little rusty, But she never lets me down

**C** **D**  
One door's painted primer gray, The other primer brown

**C** **Em**  
This old truck she wraps around me, Fits me like a glove

**C** **D**  
Taking care of a man like me, Takes a special kind of love
