

G C  
Friday night the weekend's here, Let's take a ride. I got some beer

G D C G  
Find a place we can be alone, I've got three hours to get you home

All week at school, we'd trade our glances, Now we're together, let's take our chances

Is it love, we're too young to know, That's what our parents try to tell us so

C G  
Tomorrow is uncertain Baby, And the future is out of sight - CHORUS  
C D G  
Snuggle in close to me Baby, Cause girl we've got tonight

G C  
Drive in movie at the Riverside, Four-door Chevy, lots of room inside

G D C G  
Through the years we'd go our separate ways, I smile when I think of those high school days

Tomorrow is uncertain Baby, And the future is out of sight - CHORUS

Snuggle in close to me Baby, Cause girl we've got tonight

G C  
Time traveled by, we're older now, Back together in life somehow

G D C G  
Let's drink champagne by the firelight, No need to hurry, Girl we've got all night

C G  
Tomorrow is uncertain Baby, And the future is out of sight - CHORUS

C D G  
Snuggle in close to me Baby, Cause girl we've got all night
