

D G
Not sure exactly when this thing started
D G
Perhaps right before I gave you that grin
D G
While we talked about writing a new song
A D
Then I felt you pulling my heart right in

D G
I played you some songs you played some for me
D G
I thought you were great and cute as could be
D G
I kissed your lips and kissed you more later
D G
Said you loved me on the escalator

[CHORUS]

G D
Talking with you makes me want to talk more
G D
My heart beats faster than ever before
G D
It drives me crazy this being apart
A D
It drives me crazy this thing with my heart
G D
The road up ahead is so damn hazy
G A
There's so many things that we just don't know
G D
If you end up driving me plumb crazy
A D
Then plumb crazy is where I want to go

D G
We sat together on an airport bench
D G
We watched all those travelers go by
D G
They were all rushing to go somewhere else
D G
I just wanted to stay right by your side

[CHORUS]
