

Trust the Night Richard 'Daddy' Love 12/23/2021

You love those fast cars and smoking tires  
You burn with passion and deep desires  
Just take a chance girl you just might find  
You and me baby on one starlight ride  
I'll steer the wheels, you'll be at my side  
Sound of my engine, could change your mind

Just trust the night and all the stars that shine - CHORUS  
Something so right could be down the line  
Trust the night and all the stars that shine  
Something so right could be down the line  
You and me baby, 'til the end of time  
You and me baby, 'til the end of time

Now I'm no prince, I'm no white knight  
I'm just a man who wants to treat you right  
Take a chance girl you might just find  
Of all your choices I could be the best  
I'll hold you close your head resting on my chest  
Sound of my heart could change your mind

**CHORUS**

All you need to do, is decide  
That I'm the one to be at your side  
Take that chance girl, you'll surely find  
I'll work a lifetime to treat you so fine  
You will be my year-round Valentine  
I'll make sure, you never ever change your mind

So trust the night and all the stars that shine - Last CHORUS  
Something so right will be down the line  
Trust the night and all the stars that shine  
Something so right will be down the line  
You and me baby, 'til the end of time  
You and me baby, 'til the end of time

[ Repeat Last CHORUS ]
