

Friday night the weekend's here, Let's take a ride. I got some beer

Find a place we can be alone, I've got three hours to get you home

All week at school, we'd trade our glances, Now we're together, let's take our chances

Is it love, we're too young to know, That's what our parents try to tell us so

Tomorrow is uncertain Baby, And the future is out of sight

Snuggle in close to me Baby, Cause girl we've got tonight

Drive in movie at the Riverside, Four-door Chevy, lots of room inside

Through the years we'd go our separate ways, I smile when I think of those high school days

Tomorrow is uncertain Baby, And the future is out of sight

Snuggle in close to me Baby, Cause girl we've got tonight

Time traveled by, we're older now, Back together in life somehow

Let's drink champagne by the firelight, No need to hurry, Girl we've got all night

Tomorrow is uncertain Baby, And the future is out of sight

Snuggle in close to me Baby, Cause girl we've got all night

Tomorrow is uncertain Baby, And the future is out of sight

Snuggle in close to me Baby, Cause girl we've got all night
