

# **Wonder Woman**

**Richard Love**

I'm in love with Wonder Woman and I'm not sure what it means  
She's got a smile that's twice as nice as any I've ever seen  
I see her on the TV or in the magazine  
She always looks so pretty, always looks so clean

Seems to me that I was sad until she came along  
But since that time I find that I'm singing a different song  
I love the way she wears her hair, I love the way she walks  
I love to hear her soothing voice, I love it when we talk

I'm in love with Wonder Woman and I'm not sure what it means  
She's got a smile that's twice as nice as any I've ever seen  
I see her on the TV or in the magazine  
She always looks so pretty, always looks so clean

Doctor Strange is crazy and he wants to rule the world  
You know he'd have it easy if it wasn't for my wonder girl  
He built a purple death ray that would shoot a thousand miles  
She came along and tore it up and gave us all a smile

I'm in love with Wonder Woman and I'm not sure what it means  
She's got a smile that's twice as nice as any I've ever seen  
I see her on the TV or in the magazine  
She always looks so pretty, always looks so clean

People say I'm crazy and I'm wasting all my time  
Because she doesn't answer when I drop her a line  
But I'll keep on writing letters, keep on dialing that telephone  
Sometime soon I know I'll find Wonder Woman at home

I'm in love with Wonder Woman and I'm not sure what it means...
